DocNib's PenEmporium Presents...

From 1960, a very hard to find **Pilot Ultra Super 500** with a 14K Rolled Gold cap with an engine-turned design.

It features a beautiful inlaid "Fine" nib reminiscent of the Sheaffer Targa, a spring-loaded clip, barrel is a sleek black resin over a brass shell and an internal "switch-filler" system inside the barrel (aerometric type).

Cap and nib/grip section are in excellent condition while barrel has some minor scuffing...this pen has been gently used so some minor wear is to be expected.

This pen is quite scarce and rarely comes up for sale!!

YOUR PRICE...\$995.00!!
